Noa Rezzik

Junior cybersecurity talent. Real curiosity. Zero shortcuts.

Email rezziknoa@gmail.com · **Location** France

PROFILE

Computer science student at Université Lumière Lyon 2 (France), aiming for a first role in offensive security, security analysis or Linux systems. I learn by investigating: scanning authorized labs, reading packets, breaking CTFs, and scripting what I understand.

Target roles: Junior Penetration Tester · Junior Security Researcher · Junior Cybersecurity Analyst · Junior Linux / Systems Engineer · Junior Technical Support Engineer

EDUCATION

Bachelor's Degree in Computer Science 2023–2026
Université Lumière Lyon 2, Lyon, France

TECHNICAL SKILLS

Linux & Shells	Linux, Debian, Bash, PowerShell, SSH, Git
Programming	Python, JavaScript, C / C++, Web development & scripting
Networking	TCP/IP, DNS, HTTP, Networking fundamentals, curl
Security tooling	Nmap, Wireshark, tcpdump, Burp Suite, OWASP ZAP
Practice	Hack The Box, TryHackMe, CTF exercises

EXPERIENCE

No professional cybersecurity experience yet. Hands-on practice:

- Hack The Box and TryHackMe exercises
- CTF challenges, including a recruitment challenge (4 flags solved)
- Network reconnaissance in authorized lab environments
- Linux command-line troubleshooting and Bash / Python scripting
- Web development and scripting projects

PROJECTS

Cybersecurity CTF Investigations — Four flags solved during a recruitment challenge.
Linux, Bash, Python, Wireshark, curl

Network Reconnaissance & Service Analysis — Mapping hosts and services in authorized lab environments.
Nmap, Wireshark, tcpdump, TCP/IP, DNS

Linux Troubleshooting & Scripting — Command-line debugging and automation on Debian.
Debian, Bash, Python, SSH, Git

Web Development Projects — Front-end and scripting work that shows how the web is built.
JavaScript, HTTP, Git, Burp Suite, OWASP ZAP

NOA OS — this portfolio — A sandboxed terminal that is also a CV.
React, TypeScript, Vite, Tailwind CSS, GSAP
